

## 1U 24-Port UTP Angled Panel

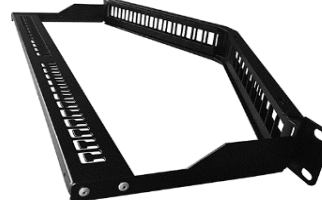

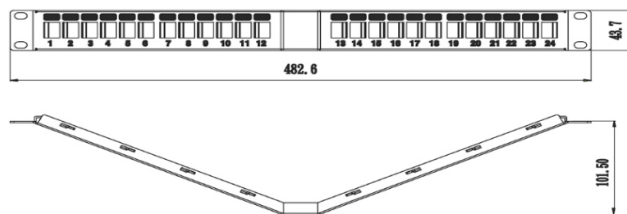

### Features

- 1U 24 Port UTP Angled Unloaded Panel
- UTP snap-in type
- Front Removable Module Design
- Easy Port Labeling
- Individually numbered ports
- Integral, removable Rear cable management

### Applications

- Voice: T1; ISDN
- 10BASE-T (IEEE 802.3)
- 100BASE-T Ethernet (IEEE802.3)
- 1 Gigabit Ethernet
- 10 Gigabit Ethernet

The SysThames 1U 24 Port UTP Angled Panel is an unloaded patch panel to be used with RJ45 keystone jack terminations. The V-Shaped, angled design, provides easy termination and identification. In cabinets with reduced space, instead of additional management panels taking up space, angled-design allows patching to move out the side mounted management. It is compatible Cat.5e, Cat.6 and Cat.6A unshielded Keystone jacks. The patch panel has an integrated rear cable management to secure and support cables for ensuring bend radius compliance.

### Standards

Industry Standards: EIA/ECA-310-E  
UL, ETL Listed

### Compatible Keystone

### Product Code

2150 - 23210 - 1U 24-Port UTP Angled Panel
