

Cat.6 FTP Patch Cable PVC/LSZH

Features & Application

Stranded wiring for conductor flexibility Longer flex life compared to solid cores Suitable for Equipment connections Suitable for Cross-connects where cables are frequently bent and manipulated Shielded RJ45 Plugs Snagless molded boots

Standards

TIA/EIA-568B.2-1

NEC/CEC

ISO/IEC 11801: 8-position conductor/pair assignment

(1-2/3-6/4-5/7-8)

IEC60332-1 (CM) - Fire Protection TIA-568-C.2: T568A & T568B

Available Types

2712-11029 - PVC 2712-11028 - LSZH

Please contact for available colours and lengths

Specifications

Stranded Copper 4 pairs, 7 Conductor: strands,26 AWG

Cable Type: F/UTP Cat.6

Outer Jacket: PVC/LSZH

Outer Cable Diameter: 6.0mm ± 0.2 mm Retention: 50 N (11 lbf) for 60±5 s min 750 cycles Mating cycle life: Tensile strength: ≥ 20 N per wire

Shielded RJ45 8P8C Modular Plug Type:

Plug

UL listed 94V-0/1/2 flame Plug Housing: retardant polycarbonate

Phosphor bronze, gold plating over 100 μin

IDC blades: of nickel in contact area

Boot Type: Snagless molded 0.3m-30m or As per request Length: Grey/Green/Blue/White/Black/

Sheath Color: Red/Yellow

Package: Polybag or Blister Package -20°C to +60°C Operating temperature:

Installation Temperature: 0°C to +60°C

Minimum bend radius: 4 outer cable diameters
